Asst. Head of School

Good Afternoon Parents/Guardians;

On Thursday, August 13, 2020 Governor Albert Bryan Jr. announced that the territory will be moving into phase **Orange** (Stay at Home). As a result, we will be beginning the school year in the **Red (All Virtual) Phase** of our Reopening Plan. While we were excited to be on campus with our students, we understand the necessity of beginning the school year virtually. We will continue to update parents as the territory moves into a phase that will allow for sessions to be held on campus.

In order for students to be fully prepared for their classes, there will be a scheduled time for parents to come to the school to collect all textbooks, login information, schedules, and supplies that will be needed. If parents requested a device to assist with the virtual program, they will also be collected at this time. These items will all be collected in the Parish Hall during the allotted time period. In addition to the collection of resources, there will also be virtual parent meetings for each level (Elementary, Middle, and High). With the transition to phase Red of our Reopening Plan, all classes will begin on August 31, 2020. The school Reopening Plan and the [Back to School page](#) on our website have been updated to reflect the territory's move to **Orange**. We thank you for your support and understanding as we begin the new school year.

Parents of returning students, now is a great time to get back into **iReady** and brush up on Math & Reading lessons. We have extended access to these lessons until August 30th. At that time, the system will move all students into the next grade and a fresh diagnostic will be assigned. Now is also a great time to ensure that your child and you can log into their school-issued email address. This will be an essential tool that will need to be accessed daily. Please use this link to request an email or iReady password reset. [LINK: Password Reset Request](#)

Parents who wish to sign out a school-issued iPad need to complete the following form, even if you already answered in the last survey. [LINK: Device Request Form](#)

The following web addresses will be used daily.

iReady: <https://login.i-ready.com/>

Email: [www.gmail.com](http://www.gmail.com)

The Main Office remains open from 8 am to 1 pm for registration & tuition payment. A mask is required and only one customer at a time will be permitted in the offices. We encourage you to call the office and put a credit card on file to reduce the need for in-person interaction. Again, we thank you and look forward to having your child(red) back in classes!

Assistant Head of School
